Subject: Fwd: Mike & Chet: Invitation to participate in NACAA call

Hi Karl,

I asked Mike and Chet if one of them could join our "SAFE" Rule call, the invite is at the bottom of this thread. Mike's response is immediately below this message.

Our members are very interested in hearing, from senior managers, about EPA's approach to addressing SIP and attainment/maintenance issues related to the rule. Is that you and/or Bill or Mike and/or Chet? (I've invited Meg too, but that's so she can explain transportation impacts and provide some data.)

Please advise.

I hope everyone in your family is doing well.

Thanks,
-Nancy

Subject: **Re: Mike & Chet: Invitation to participate in NACAA call**

Nancy: After conferring internally, we believe that OTAQ should be able to cover this sufficiently for OAR - no need for OAQPS to be involved. Thanks anyway for the invitation. Have a great weekend!

Mike

Mike and Chet,

I hope you and your families are safe and healthy.

I'm writing to invite one or both of you to participate, during the week of April 20, in a NACAA membership call on the final "SAFE" Rule. We have invited OTAQ but would also appreciate hearing from OAQPS about how EPA is approaching SIP and attainment/maintenance issues related to the SAFE Rule.

We are currently identifying potential dates and times during the week of April 20 and will be in touch with those next week, but I wanted to reach out now to invite you and see if you are willing.

I look forward to hearing from you.

Thanks,
-Nancy
